WELCOME TO THE TOWNSHIP OF UNION DEPARTMENT OF PUBLIC WORKS WEBSITE

Sergio P. Panunzio CPWM, CPM.
Superintendent

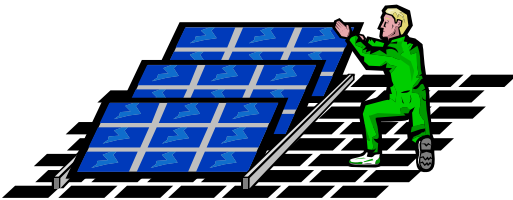

Make it Personal!

Our computer software program allows our receptionist to view data from all callers, giving us a list and a better tracking of our resident request. Every telephone call, e-mail, letter is logged into the computer program whenever a request comes through public works. This allows us to have a lower amount of "Falling through the cracks" requests. On an average we handle over 6,500 residents requests per year.

Moreover, the work order generated has a "Life" of 90-45-30-15- or Imminent days, meaning that the work requested has to be performed in a 90-45-30-15 or immediate working day(s) from opening or the assigned supervisor must answer to his/her superiors.

Solar Powered

Our facility on Swanstrom place is powered by solar energy. The Township of Union DPW is one of the few in the State of New Jersey facility that has installed solar panels to augment electricity throughout the facility with solar energy. This is not only good for the environment but for our resident's tax dollar. 40% of our energy used to operate and maintain the facility is created by sunlight.
